## Additional Skills

- Html5 + CSS3 + Javascript

## Professional Summary

I am a highly competent web application software developer with 3 years' experience developing a wide range of projects for both framework and non-framework oriented. I have proven expertise in building e-commerce and restaurant review apps. I understand the app project lifecycle in-depth and I enjoy all aspects of development from project planning to requirements gathering through to writing and testing code, creating documentation, and support. I am currently seeking long-term contract positions that will allow me to further improve and sharpen my software skills. I'm always up for new challenges and opportunities to learn more and do more.

## Work Experience

02/2017 - Current days

### Frontend Freelancer

- Active learning, working and developing my Angular and NodeJs skills with a couple of personal and team projects.

10/2018 - 03/2020

### Final International University, Kyrenia

- Organized and control lab equipment and devices.
- Installed and connected all software and their updates in both the microprocessor and programmable electronics labs.
- Prepared all lab course resources before and after every session.
- Led and organized freshman engineering student workshop sessions in the various labs.
- Taught Technical English course to engineer students attending English preparatory school.

05/2012 - 10/2012

### Eneo Cameroon, Douala

- Routine plant backup security systems testing.
- Redesigned the cabling system of the main transformer maintenance crane.
- Actively participated in weekly meetings during tasks are reassigned and goals are reevaluated.
- Join the team from Schneider electronics for 3 months. The project was a complete replacement of the relay system with automates.
- Submitted weekly reports on technical tasks carried by all subcontractor firms.

- Angular
- NodeJS + ExpressJS
- C# + .NET Framework + EF6
- SCSS + Bootstrap
- Typescript
- Java
- Git + Github
- Ionic Framework
- NoSQL (MongoDB + Firebase)
- Mysql + MS SQL

## Education

---

09/2016 - 07/2020

### Final International University

- Organised monthly workshop events during which engineering students had the opportunity to share and showcase their team projects.
- Minor in software engineering specifically, web technologies.
- Awarded honor certificate (2017, 2018, 2019, and 2020)
- Awarded valedictorian honor for the best student in the 2020 graduation batch of the university.
- Awarded North Cyprus state scholarship

09/2011 - 07/2013

### National Polytechnic Cameroon, Bamenda

- Engineering design patterns and best practices
- Engineering Management
- Teamwork and communication in design.
- Practical engineering solutions and applicability

09/2009 - 02/2011

### University of Douala

- Mostly benefited from the Applied Physics and Mathematically methods related courses.
